

“The Worlds #1 Patented Non Flat TPE Wheels”

Our Flat-Free TPE Wheels each have there own unique tread for very long wearing with a high rubber to void ratio and have better spring and friction than EVA and PU wheels in the marketplace today. They are all extremely gentle to the turf yet provide superb traction. Each wheel is constructed of a unique light weight material which outlast traditional tires EVA and PU by 4 to 10 times. The end result is higher productivity, improved equipment reliability and reduced down time. Also our wheels are priced in line with the EVA and PU type wheels in the Market Place Today.

Flat-Free TPE Wheel

- Innovative Patented Design.
- Sturdy textures avoid problems like tire breakage or air leakage.
- Unlike EVA and PU wheels, our products are friction-resistant, highly flexible and weatherproof.
- Size: 6” and 9”.

Flat-Free TPE Wheel

- Innovative Patented Design.
- Sturdy textures avoid problems like tire breakage or air leakage.
- Unlike EVA and PU wheels, our products are friction-resistant, highly flexible and weatherproof.
- Size: 9”.

Flat-Free TPE Wheel

- Innovative Patented Design.
- Sturdy textures avoid problems like tire breakage or air leakage.
- Unlike EVA and PU wheels, our products are friction-resistant, highly flexible and weatherproof.
- Size: 10”.

Flat-Free TPE Wheel

- Innovative Patented Design.
- Sturdy textures avoid problems like tire breakage or air leakage.
- Unlike EVA and PU wheels, our products are friction-resistant, highly flexible and weatherproof.
- Size: 10”

Flat-Free TPE Wheel

- Innovative Patented Design.
- Sturdy textures avoid problems like tire breakage or air leakage.
- Unlike EVA and PU wheels, our products are friction-resistant, highly flexible and weatherproof.
- Size: 10” and 13”

Flat-Free TPE Wheel

- Innovative Patented Design.
- Sturdy textures avoid problems like tire breakage or air leakage.
- Unlike EVA and PU wheels, our products are friction-resistant, highly flexible and weatherproof.
- Size: 16”.

Flat-Free TPE Wheel

- Innovative Patented Design.
- Sturdy textures avoid problems like tire breakage or air leakage.
- Unlike EVA and PU wheels, our products are friction-resistant, highly flexible and weatherproof.
- Size: 12”.

Flat-Free TPE Wheel

- Innovative Patented Design.
- Sturdy textures avoid problems like tire breakage or air leakage.
- Unlike EVA and PU wheels, our products are friction-resistant, highly flexible and weatherproof.
- Size: 13”.
